1) Cut out Haunted House template

2) Lay template over over black paper and trace with a pencil or visible pen

3) Use an exacto knife to cut the slits in the windows from the template and through to the black paper

4) Remove template. Lay yellow or light colored paper under the black paper and cut both black and light paper together.

5) Remove the yellow paper, and fix any uncut windos with the exacto knife.
Open the windows.

6) Spread glue to the back of the house. press onto yellow paper. cut off any yellow show through with an exacto knife.

7) Glue haunted house to backing paper (dark blue or other)

8) Draw your spooky halooween visitors in the windows!

9) Hang up and spook!
